

## **5 Minute Warning**

Children/teens have a tough time breaking away from playing, or other activities. Whenever possible, we should give them a warning, letting them know that it is time to mentally disengage from what they are doing. If not, they are tempted to disobey. Why not give them a way to obey?

This also works well for Dads that are in the garage playing or working on a project, or the whole family on Sunday morning.

### **1 Corinthians 10:13b**

But when you are tempted, he will also provide a way out so that you can stand up under it.
