

JAMES ISLAND ELITE Basketball

James Island's first and only AAU girls travel basketball team could use your help. Until now, girls who wanted to improve their basketball skill and ability in the off season had to travel to Ladson, Summerville or further. These girls are trying to step up and make a difference on James Island/West Ashley/Johns Island and the Peninsula. The expense to travel and compete in a sport where resources are so limited for girls makes it difficult, especially girls with limited resources. Make an investment in this team. Established in 2011, this is a 2012 10th grade and under team that is committed to stay together until they graduate, and add skilled players and more teams along the way. But they need your help. There are multiple ways to sponsor this team. Please consider helping out in the future of girls basketball in Charleston County.

Each level of support best offers the appreciation that you are helping make a difference for young female athletes. Web site sponsor recognition and Level benefits listed also include those listed below it.
